EDUCATION

Dwarkadas J. Sanghvi College of Engineering (University of Mumbai)

2017 - 2021

Bachelor of Engineering (B.E.) in Computer Engineering

Overall GPA: **9.86/10**

Applied Mathematics, Discrete Mathematics, Algorithms, Databases, Machine Learning, Artificial Intelligence, Natural Language Processing

RESEARCH EXPERIENCE

Research Collaboration

Sep 2021 - Present

Independent Researcher (Remote)

Advisor: [Dr. Zeerak Talat](#)

- Identify real-world representations of overt hate speech on different non-iid datasets using Federated Learning.
- Extension to the cross-dataset model generalization by [Fortuna et al. \(2021\)](#) for hate speech detection.

University of California San Diego

Jun 2021 - Present

Research Intern (Remote)

Advisor: [Prof. Pengtao Xie](#)

• **Active projects:**

- Working on improving the robustness of VQA systems for out-of-distribution using adversarial data generation.
- Working on improving open-ended dialog generation systems using semantic grounding and abductive reasoning.
- Built efficient optimization algorithm for Neural Architecture Search adopting an importance weighting strategy.

Unicode Research

Aug 2020 - Present

Research Student (Remote)

Advisor: [Swapneel Mehta](#)

• **Active projects:**

- Estimating the causal impact of non-expert mentors on the mentee students' careers in Indian institutions.
- Small-world simulation using probabilistic modeling to understand opinion polarization in online communities.
- **Teaching Assistant:** Summer Machine Learning Course, [UMLSC 2021](#), supported by [Google Research India](#)
- Presented [seminars](#) & [paper reviews](#) related to the topic of machine learning and research opportunities.

RESEARCH & PUBLICATIONS

Publications available at [Google Scholar](#)

WORK EXPERIENCE

Unicode

Aug 2018 - Jun 2021

Web Developer & Student Mentor

- Mentored a team of sophomores on projects such as Inventory Management, Masters and Placement Portals.
- Conducted workshop on web development and open-source development for over 100 students in the college.

Tata Consultancy Services

Dec 2019 - Feb 2020

Machine Learning Intern

- Developed models using VAEs and K-means clustering for customer behavior analysis to prevent customer churn.
- Prepared a custom dataset by developing surveys to handle open-ended and closed-ended questions.
- Extracted feedback responses from handwritten survey forms using OCR achieving 12% CER and 18% WER.

Ucadd EdTech

Dec 2018 - Aug 2019

Web Developer (Remote)

- Built a learning platform with support for content streaming, adaptive assessments, doubt-solving, etc using MERN stack.
- Worked on optimizing lecture streaming with limited data bandwidth from hosting providers such as Vimeo.
- Spearheaded data analytics to generate useful insights about the courses for instructors based on user interactions.

Sensum Fintech

Jan 2019 - Feb 2019

Web Developer

- Constructed visualization graphs using plotly to show and analyze the trends in the finance trading markets.
- Integrated backend APIs for stock recommendations and improved user experience by optimizing the builds.

PROJECTS

Ocubot - Image-based Dialog

Advisor: Prof. Pratik Kanani

- B.E. project on building a conversational dialog system about visual information in an image ([Visual Dialog](#)).
- Incorporate coreference resolution using attention over dialog history to have more natural conversations.
- Reduced modality biases by improving visual context with dense captions and attention over these captions.

Anomaly Detection in ECG Signals

Advisor: Prof. Pratik Kanani

- Industry collaboration to develop neural models for detecting anomalies in processed ECG signals from IoT devices.
- Applied distributed computing algorithms for speed improvements during inference and load balancing by 60%.

Annotated PyTorch Paper Implementations

[View](#)

- Annotated PyTorch implementations of deep learning papers as interactive jupyter notebooks.
- Includes papers such as Word2Vec, GloVe, KimCNN, Bahdanau Attention, Transformer, etc.

C Programming Exam Portal

[View](#)

- A paperless solution for conducting C programming exam for over 500 students at [D. J. Sanghvi](#).
- Generated data-driven detailed reports for students and instructors to enhance the overall learning experience.

SKILLS

Languages

Python, C, Java, JavaScript, SQL, HTML5

Databases

MySQL, SQLite, PostgreSQL, MongoDB

Libraries and frameworks

PyTorch, Keras, Scikit-learn, NumPy, Pandas, OpenCV, Gensim, SpaCy, NLTK, Flask, FastAPI, Streamlit, ReactJs, NodeJs

Others

Git, Jupyter, Docker, Raspberry Pi, LaTeX

CO-CURRICULAR ACTIVITIES

1. Member of [Shalizi-Stats](#) reading group which focuses on the stats book [Advanced Data Analysis from an Elementary Point of View](#) by Cosma Shalizi and [Bayesian Statistics](#).
2. Attended the [Advanced Language Processing Winter School \(ALPS\) 2022](#).
