

JAY GALA

✉ jaygala24@gmail.com 🌐 jaygala24.github.io 🐙 github.com/jaygala24

EDUCATION

Dwarkadas J. Sanghvi College of Engineering

(University of Mumbai)

B.E. in Computer Engineering

Aug 2017 - Jul 2021

Overall GPA: 9.86/10

Applied Mathematics, Discrete Mathematics, Algorithms, Databases, Machine Learning, Artificial Intelligence, Natural Language Processing

EXPERIENCE

Remote Research Collaboration

Independent Researcher

Sep 2021 - Present

Advisor: [Zeerak Talat](#)

- Identify real-world representations of overt hate speech on different non-iid datasets using Federated Learning.
- Extension to the cross-dataset model generalization by [Fortuna et al.](#) for hate speech.
- Experiments include base models, AWD-LSTM, DistilBERT, ALBERT, DistilGPT-2, FNet, etc.

University of California San Diego

Research Intern

Jun 2021 - Present

Advisor: [Prof. Pengtao Xie](#)

- Working on applying humans' learning skills, specifically *learning from mistakes*, as an extension to [Skillearn](#).
- Built efficient optimization algorithms for Neural Architecture Search adopting an importance weighting strategy.
- Preliminary results outperforms DARTS, P-DARTS, and PC-DARTS on CIFAR.

Tata Consultancy Services

Machine Learning Project Intern

Dec 2019 - Feb 2020

- Developed models using VAEs and K-means clustering for customer behavior analysis to prevent customer churn.
- Prepared a custom dataset by developing surveys to handle open-ended and closed-ended questions.
- Extracted feedback responses from handwritten survey forms using OCR achieving 12% CER and 18% WER.

Ucadd EdTech

Web Developer

Dec 2018 - Aug 2019

- Built a platform using MERN stack for the organization's instructors to build courses.
- Introduced data analytics to generate helpful insights regarding the courses for the instructors.

Sensum Fintech

Web Developer

Jan 2019 - Feb 2019

- Constructed visualization graphs using plotly to show and analyze the trends in the finance trading markets.
- Integrated backend APIs for stock recommendations and improved user experience by optimizing the builds.

Unicode

Web Developer & Student Mentor

Aug 2018 - Jun 2021

- Mentored a team of sophomores on projects such as Inventory Management, Masters and Placement Portals.
- Conducted workshop on web development and open-source development for over 100 students in the college.

PROJECTS

Ocubot - Image-based Dialog

Advisor: [Prof. Pratik Kanani](#)

- Final-year research project on building a conversational dialog system about visual information in an image.
- Incorporate coreference resolution using attention over dialog history to have more natural conversations.
- Reduced modality biases by improving visual context with dense captions and attention over these captions.

Anomaly Detection in ECG Signals

Advisor: Prof. Pratik Kanani

- Industry collaboration to develop neural models for detecting anomalies in processed ECG signals from IoT devices.
- Applied distributed computing algorithms for speed improvements during inference and load balancing by 60%.

Annotated PyTorch Paper Implementations

[View](#)

- Annotated PyTorch implementations of deep learning papers as interactive jupyter notebooks.
- Includes papers such as Word2Vec, GloVe, KimCNN, Bahdanau Attention, Transformer, etc.

Image Captioning using Attention

[View](#)

- Automatically generate descriptive captions from an image along with attention map.
- Implementation of Show, Attend and Tell paper by [Kelvin Xu et al.](#) using PyTorch.

C Programming Exam Portal

[View](#)

- A paperless solution for conducting C programming exam for over 500 students at [D. J. Sanghvi](#).
- Generated data-driven detailed reports for students and instructors to enhance the overall learning experience.

SKILLS

Languages	Python, C, Java, JavaScript, SQL, HTML5
Databases	MySQL, SQLite, PostgreSQL, MongoDB
Libraries and frameworks	PyTorch, Keras, Scikit-learn, NumPy, Pandas, OpenCV, Gensim, SpaCy, NLTK, Flask, FastAPI, Streamlit, ReactJs, NodeJs
Others	Git, Jupyter, Docker, Raspberry Pi, LaTeX

CO-CURRICULAR ACTIVITIES

Teaching Assistant for an undergrad-level Machine Learning Course - [UMLSC](#), supported by **Google Research India**
Member of [Shalizi–Stats](#) reading group which focuses on the stats book [Advanced Data Analysis from an Elementary Point of View](#) by Cosma Shalizi and [Bayesian Statistics](#).

Working on identifying the causal effects of non-expert mentors on the careers of the mentee (students) in educational institutions as a part of **Unicode Research Group**

Presented [machine learning paper reviews](#) in the Unicode Research Group and ML Collective
